

SUMMARY

Jürgen Held

Baltic Energy Innovation Centre (BEIC)

Take aways

- Many benefits with biomethane
- Biomethane gives the opportunity to decarbonise the energy sector in general and the transportation sector in particular (incl. ferries, trains and heavy duty trucks)
- Major gas distributors are talking about 100% renewable gas in the future
- Methane is expected to be the dominating fuel during this century

Upcoming event

20-21 May 2019, Scandic Triangeln, Malmö, SWEDEN

In collaboration with LFG Baltic

Biomethane, bioSNG and electro-methane as well as landfill gas
